

Aquaculture Field Day

June 13, 2009

OSU South Centers

Piketon, OH

10:00 am– 3:00 pm

Admission: \$5.00

(includes handouts, snacks, drinks)

The aquaculture field day will consist of self-guided walking tours of the Ohio Center for Aquaculture Research and Development facility. Aquaculture Specialists will be stationed throughout the tour to explain current research projects, culture systems and answer questions. Tours will start every hour on the hour. Spend as much time as you'd like at each station. Stations will include the Aquaculture Genetics and Histology Laboratory, the indoor research facility, the production ponds, the greenhouse and a resource room with books, videos and other information on aquaculture.

Fish and possibly shrimp will be available for viewing.
